

Student Travel Survey – Instructions for online version

An online version of the Student Travel Survey is available at <https://bikewalkroll.org/>. BikeWalkRoll is a quick, easy and engaging online survey tool, designed to be used by teachers in the classroom using a laptop or tablet.

How does BikeWalkRoll work?

The teacher conducts the hands-up Student Travel Survey with their class, entering the responses for each travel mode into the BikeWalkRoll survey tool.

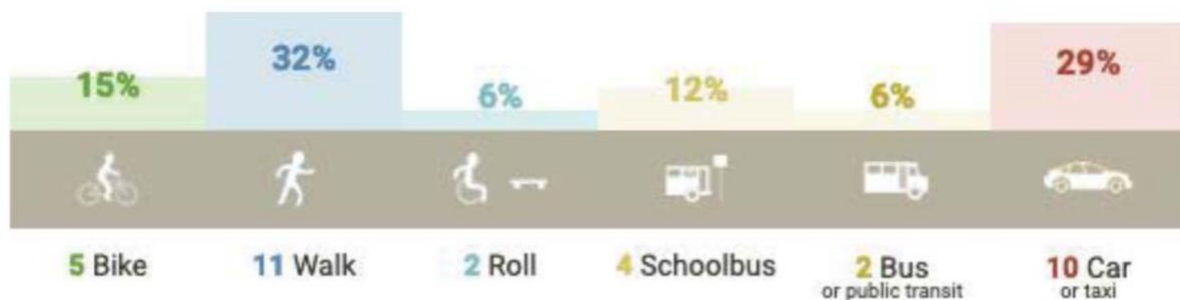

The tool will immediately display the results and will also generate a BikeWalkRoll score that the teacher can share with the class:

Do a quick hands up survey. ×
Ask students how they traveled TO school on:
Friday February 22, 2019

- Who biked to school today? All or most of the way. 0 Students
- Who walked to school today? All or most of the way. 0 Students
- Who rolled to school today? This includes wheelchairs, motorized scooters, etc. 0 Students
- Who rode a schoolbus to school today? This includes any school vehicles for students only. 0 Students
- Who rode public transit to school today? All or most of the way. Includes taxis, ferries, buses, etc. 0 Students
- Who rode in a car to school today? This includes taxis. 0 Students
