Budget \$358,860 (\$110,600 OAST Fund + \$248,260 matching local support)

Overview

Strengthening and expanding local and regional active school travel (AST) initiatives and partnerships in the City of Barrie and the wider Simcoe-Muskoka region.

Project highlights

- » Implementing School Travel Planning at 17 schools across the region including GIS mapping and air quality testing.
- » Developing a series of pedestrian/cycling safety videos for students as well as an AST Charter.

What they're saying

"It's wonderful that you're taking that step to be active and to not come to school in your parent's car...That's what our government wants to do: help you make these healthy habits that you'll have for the rest of your lives."

~Hon. Caroline Mulroney, Minister of Transportation
& MPP, York-Simcoe
