**Budget \$169,000** (\$60,000 OAST Fund + \$109,000 matching local support)

### Overview

The project introduced School Travel Planning (STP) to local schools and strengthened collaboration between stakeholders.

### Project highlights

- » Implemented STP at eight schools across five municipalities and four school boards.
- » A new Durham Active and Sustainable School Travel committee brought together municipal and school board representatives to improve information sharing and strengthen cooperation.
- » Developed a new cycling guide for youth aged 10-15.

### What they're saying

*"Having an active school transportation plan to encourage non-motorized transport will help schools deal with traffic congestion, unsafe parking practices and complaints from area residents. We look forward to working in conjunction with the schools and the Region of Durham to make these potential benefits a reality."*

– Dave Barton, Mayor, Township of Uxbridge
