

## Lead London District Catholic School Board

### Partners

- Southwestern Ontario Student Transportation Services
- CAN-Bike London
- London's Child & Youth Network

### Contact

[mybigyellowbus.ca](http://mybigyellowbus.ca)

### Budget **\$182,650**

(\$100,000 OAST Fund + \$82,650 matching local support)

### Overview

Project partners collaborated to strengthen support for School Travel Planning(STP), pilot a walking school bus and expand existing initiatives including wayfinding signage, bike rack installations and cycling skills training.

### Project highlights

- » A new position was created within Southwestern Ontario Student Transportation Services to support STP at select schools and serve as the point of contact on active transportation for other schools across the region.
- » New wayfinding signage was installed at six schools. Related promotional materials and an implementation guide were also developed.
- » Three schools participated in a Walking School Bus pilot project delivered in collaboration with the Canadian Cancer Society.

### What they're saying

*"Our team will be looking for safe route for students to travel, and help schools get the information to families."*

- Jacquie Davison, Superintendent of Business, London District Catholic School Board
